

VICTORY DISCOVERY

Posted on June 9, 2022 by Aranjin Resources Limited

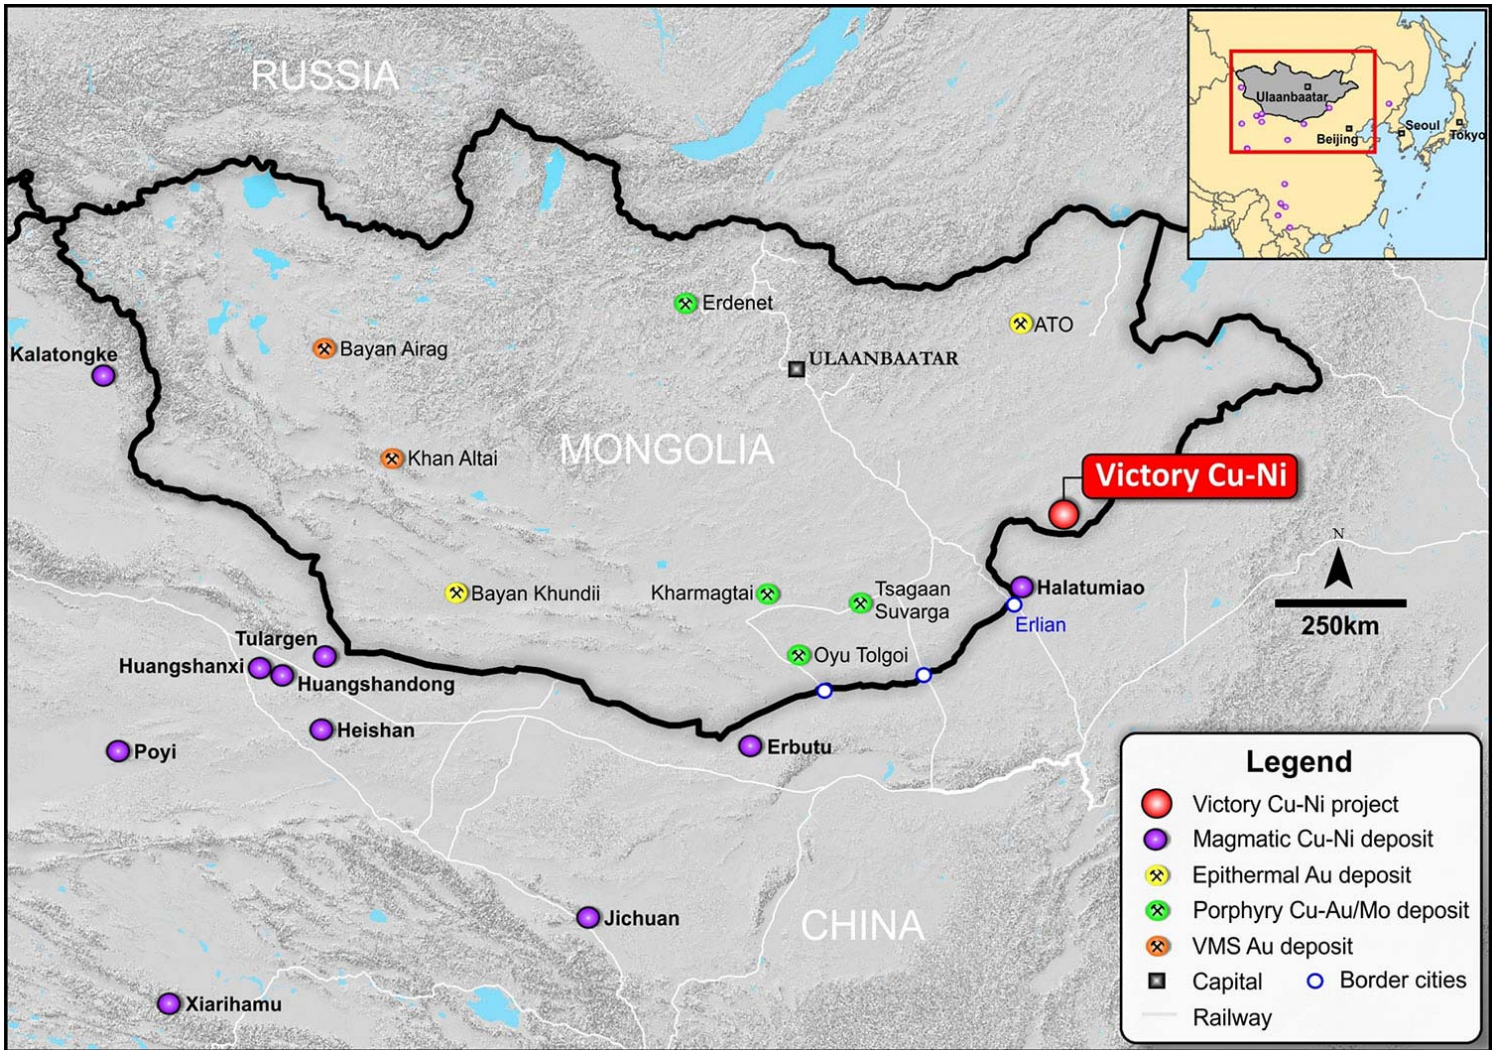

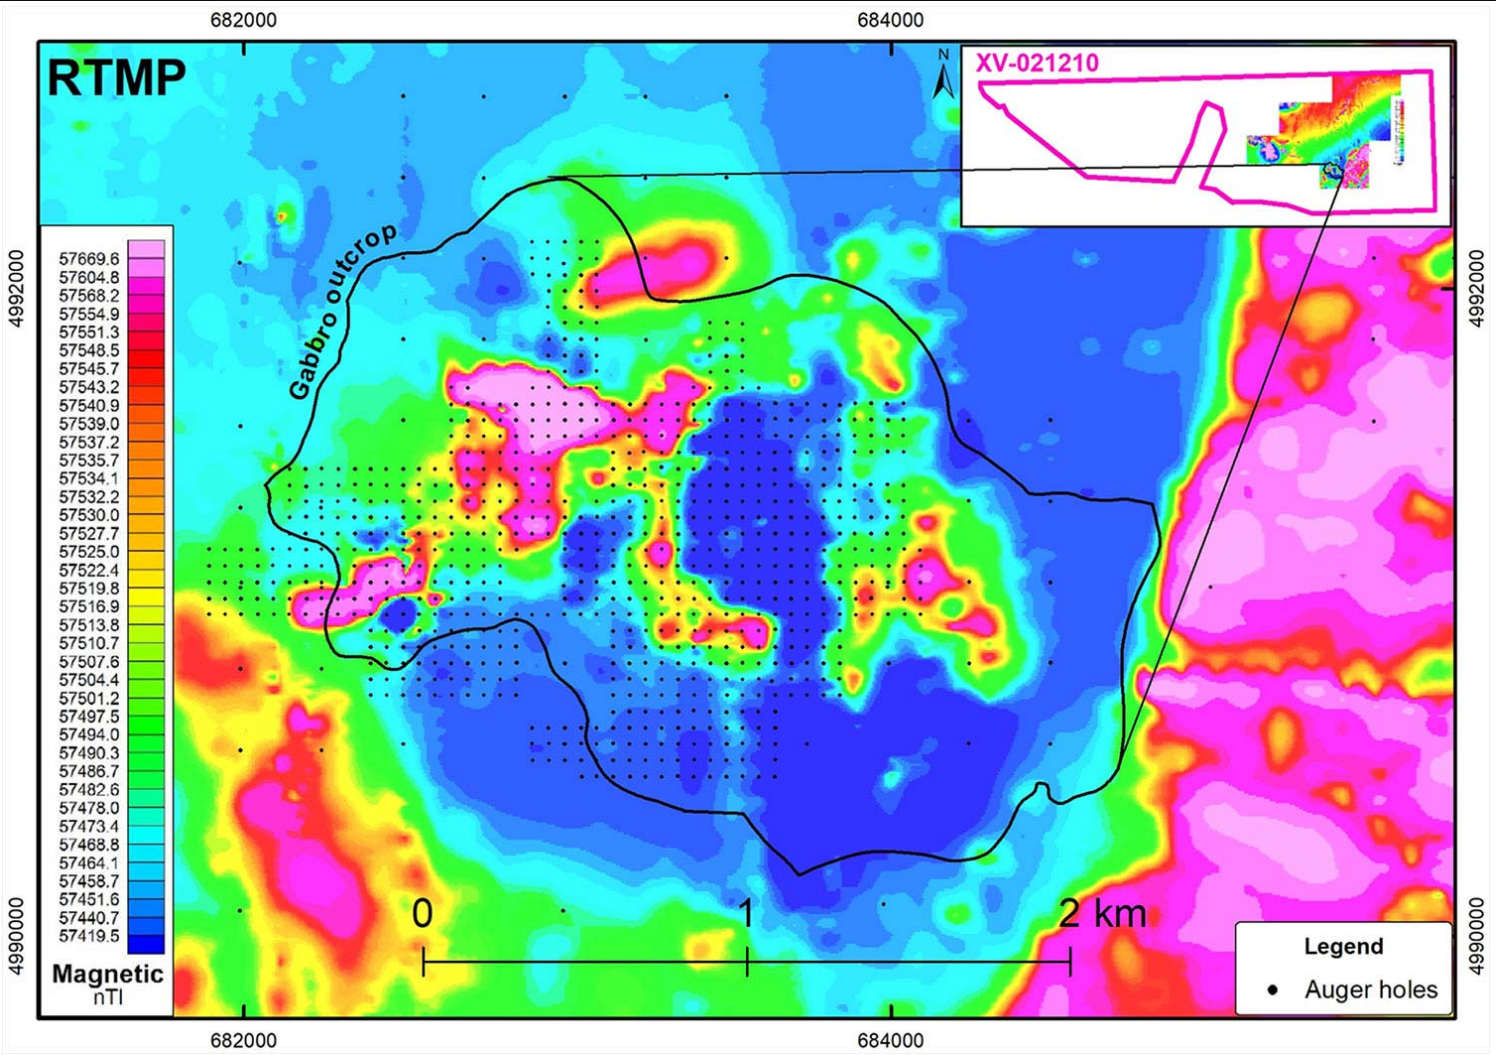

Category: [Public listed companies](#)

“Aranjin’s team is extremely pleased with these early results at the Victory Discovery with highly anomalous copper nickel geochemistry across a huge area. The scale seen at Victory and the over 25 other copper nickel anomalies on the Project is extremely exciting and we will be pushing our exploration efforts harder to better understand this significant find.”

Ali Haji, CEO & Director of Aranjin Resources Ltd.
