The National Audit Office conducted a performance audit of the implementation, effectiveness, and results of the Law on Prevention and Control of the COVID-19 Pandemic and Reduction of Negative Impacts on Society and Economy, involving relevant organizations.

As for the measures taken by the Government of Mongolia to ensure the implementation of the above law:

- 4.4 trillion in 2020
- 5.2 trillion in 2021
- 1.6 trillion in 2022
- a total of 11.2 trillion MNT was spent.

MNT 2.6 trillion was spent in 2020-2021 to balance citizens' income. Of which, MNT 2 billion 167.6 million was used to increase the child allowance, MNT 273.5 billion to increase welfare pensions and allowances for children in need of constant care, MNT 174.9 billion was spent on wool incentives for herder families, and MNT 20.0 billion on increasing the total price of food stamps.

In addition, MNT 1.2 trillion was spent on medical care during the pandemic. Of this, MNT 1.01 trillion was spent on health protection measures, and MNT 111.7 billion was spent on vaccination campaigns.

Another MNT 4.4 trillion was spent to stimulate the economy during the pandemic:

- MNT 2.1 trillion to finance the shortfall in budget revenue from foreign sources,
- MNT 1.03 trillion for the exemption of electricity, heat, water, and waste charges,
- MNT 997.9 billion to provide 300,000 MNT support during the strict curfew,
- MNT 202.6 billion was spent to exempt food, medicine, and medical equipment from customs duty and VAT for imported goods.

Within these measures, 240,000 private sector jobs were saved and 72,000 new jobs were created.
